Recommendation of: Mr. Frazer Roland of Can-Am Test Prep Academy

March 28, 2014

To Other Parents:

We unreservedly recommend the university admissions test prep services of Mr. Frazer Roland of Can-Am Test Prep Academy. Mr. Roland can be reached via the website: <http://canamtestprep.com/>

With great assistance from Mr. Roland, our son, David, was skillfully prepped, motivated and encouraged through to a successful conclusion, involving admission into Stanford, Harvard, Yale, Yale Singapore and University of Chicago. Mr. Roland was instrumental in preparing our son for the key admissions tests, ensuring that David was able to achieve the high entrance standards required by leading U.S. institutions.

Since these admission tests often cover new and advanced material not yet learned during regular school courses, Mr. Roland's classes and one-on-one tutoring sessions were critical for our son to acquire and master the required material in advance of the ACT and SAT test dates. The test practice sessions were also invaluable, ensuring that our son was prepared for the logistical and emotional challenges of these core admission tests. Most importantly however, I would like to stress how much of an impact Mr. Roland has been in the development of our son over the past two years. I cannot say enough about the personal involvement and dedication of Mr. Roland which continuously inspired my son to keep reaching for his very best.

If you are considering top ranked schools in the United States for your children, we would highly recommend the services of Mr. Roland to help maximize your chances of successful admission. With so much to learn about the university admissions process, it is important to find the right people to support your efforts and essential to start the process early (e.g. before the end of Grade 10). The right guidance, strategy and experience is absolutely critical to success. Mr. Frazer Roland made a great world of difference in the preparation work that led to David achieving admission into the school of his choice.

Please do not hesitate to contact me if you have any further questions about my recommendation of the services of Mr. Frazer Roland of Can-Am Test Prep Academy.

Yours sincerely,

CAROLYN CROSS
